Daniel Meyer, San Francisco; George Russell, Elko; M. D. Foley, M. E. Ward, J. N. Evans, C. C. Fowling, L. Abraham, Reno.

\* Will transact a General Banking Business, Mining and other Stocks bought and sold on commission.

Agents for several first-class insurance companies.

## MISCELLANEOUS.

## TWENTY YEARS AGO

Physicians sent their throat and lung patients toward the tropics. Now they send them northward—to the mountains—up among the pines. Sufferers from throat and lung troubles experience a wonderful sense of relief in the fragrant atmosphere of a pine country.

## Santa Abie

is prepared from Abietine Balsam, obtained from a rare species of pine found only in California and Norway, and from Yerba Santa, better known as Mountain Balm. Soothing, healing and restorative, Santa Abie is a matchless remedy for coughs, colds, croup, asthma, bronchitis and all other diseases of like character. Easy to take, quick in its effects. Every bottle guaranteed.

## FOR SALE BY

S. J. HODGKINSON.

## CHARLES E. CLOUD,

BUILDER, ARCHITECT AND CONTRACTOR.

RENO, NEVADA.

Plans for buildings and estimates of cost furnished. Contracts taken for any size or style building. Residence near the University. Orders for building and other work will receive prompt attention.

## An Inaugural Ode.

He went to the Capital City,  
In the midst of the bustle and din,  
To see how a great and grand federal state  
Both before and now ran.

And he gazed on the backs of the people,  
And he heard the loud trumpet's blare,  
And his foot marked time to the merry chime  
Of the good old church bells there.

And he paid \$10 a minute  
For the fun of a knocking about,  
For the fun of a mauling and hauling,  
For the fun of a deafening shout.

But he saw not the man elected,  
He heard not the great man's speech,  
He saw no parade, though for seats he had  
Paid.

For the crowd kept them out of his reach.

And when he returned to his homestead  
His clothing was tattered and torn,  
And down in his soul was a surplus of dole  
Mixed in with a leaven of scorn.

And he said with a sigh that was tearful,  
And a face that was dreary to see,  
"Despite the hard seats and the acrobats' feats,  
Despite the bad jokes and the commonplace folks,  
Despite the mock freak and the lemonade weak,  
The circus of old suits me!"

—Harper's Bazar.

One of Africa's Latest Marvels.

Only five years ago a magnificent harbor was discovered at the mouth of the Pangave river, about 115 miles below the Zambesi delta. It is about two miles wide and six miles long and on its northern shore has arisen the town of Beira, where 500 Europeans, half of them British, are now living. Beira is one of Africa's latest marvels. Probably no white man six years ago had ever seen the barren promontory of sand it occupies. On Nov. 28, 1892, a locomotive that had been put together in Beira puffed through one of the streets and a little way out of the town, for Beira is to be the port of Mashonaland, the region of mountain and plateau, where British enterprise is opening new goldfields.

A month ago 85 miles of the railroad had been completed. The route for nearly half the way to Massikess lies along the Buzi river. Its total length is less than 200 miles, its longest bridge has a span of about 800 feet, and the cost of the road is estimated at about \$3,000,000. The Mozambique company, a Portuguese corporation, is carrying out the work, but by arrangement the British South Africa company is to have certain privileges in the management of the road and will build an extension from the Portuguese frontier at Massikess to Fort Salisbury, the seat of government in Mashonaland. —Engineering Magazine.

## The Pipe Craze in the East.

Upper Broadway and Fifth avenue in New York swarmed with men whose tire indicators that they are in Ollie Teale's "4,000." These perambulating fashion plates bite the amber tip of a truly English short briarwood pipe with a tenacity worthy of the prince himself. It's English to smoke a pipe in public places and also on the street, and that settles it. But it is in New Haven and Cambridge that the fever has broken out like the smallpox pustules. Thin, concave chested student chaps, straggling along Church and State streets, or hold up the front walls of Treagar's or Huenblum's, every blessed one of 'em nursing a pipe, the shorter and stumper the more the chappie thinks he's in it.

It's really comical to observe the dead boys in couples, trios and squads, pipe in mouth, trousers rolled up, with the most killing Piccadilly swagger, march along like children from a nursery school. The pipes bite their tongues, give them bronchitis, disgust everybody else, but they are in the swim, and that's enough for chappie, dead boy.—Cor. Washington Star.

## An Interesting Use of Photography.

A French photographer lately perfected a process by which a bit of ordinary paper—the leaf of a book, for example—can be made sensitive to the light without affecting the rest of the page. Acting on this hint, the French war minister has begun to take the portraits of conscripts and recruits on the paper which gives their height, complexion, age, etc., and the cheapness and swiftness of the operation, which is already in use in the French army, is something remarkable. It costs only a cent to get two copies of a portrait of Jacques Bonhomme—one for his individual register and the other for his muster roll—and so rapid is the process that in a few hours a whole regiment can be so photographed. The soldiers file along one by one, and each sits for three seconds in the photographic chair, and the thing is done.—Boston Advertiser.

## Leaving No Stone Unturned.

"Take all my beard off and give me a short hair cut," said the man in the adjoining chair as he threw himself upon the mercy of the razor wielder.  
"What, take off all that fine beard?" inquired the barber in astonishment.  
"Yes," replied the customer. "I have been cultivating this beard for over 20 years, and I hate to part with it. It must go, as I am after a job in the interior department, and I got a straight tip from a Georgia friend that Hoke Smith is partial to men who do not wear any hair on their faces. Take it all off," he added as he leaned back in the chair and indulged in mental speculation over his prospects for obtaining employment in Uncle Sam's vineyard. — Washington Post.

## Shingles by the Carload.

The northwest is sending immense quantities of shingles to the east just now. Fifteen to 20 carloads a day was the average freighting of this commodity passing through Seattle in the first half of the month, and one day a solid train of 80 carloads of shingles left that point for the east.

John W. Bookwalter, the Ohio millionaire, said the other day, "I cannot tell you how much money I have spent trying to build a machine which will fly, but I think that I have a model under way now that will solve the problem."

It is said that a large hotel for the accommodation of colored people is to be built in Slater, Mo., by colored capitalists.

DR. PORTER HAS RETURNED for the purpose of advertising the

## "Hale Method of Painless Filling."

Absolutely painless without Chloroform, Gas, Ether or Cocaine.

OFFICE IN STEELE BUILDING, COMMERCIAL ROW, RENO.

Here are a Few Testimonials from Citizens Who have Already Tried the Method:

Dr. Porter—DEAR SIR:—It affords me pleasure to say that the Hale method of painless filling opens a new era in the dental world. After having several very sensitive cavities filled by you with gold and amalgam with gratifying results, I am of the opinion that the method is far beyond comparison.  
PATRICK HENRY.

Dr. Porter—DEAR SIR:—In answer to your request for my candid opinion as to the Hale method of painless filling, I beg to state that I went to one of Dr. Lee's finest operators in San Francisco, and he filled several teeth for me with more or less pain; but when he came to the one you have just filled, it was simply impossible for me to endure the torture, consequently I asked him to stop, which he did. I thought I would be obliged to have the tooth extracted. I wish to state that in five minutes after you commenced to operate there was positively no pain; it felt just as if you were cutting a piece of wood. I am so highly pleased with the manner in which you filled the tooth that I feel it but just to express my appreciation of the method. It is all you can do for it.  
CHARLES HOPE.

Dr. Porter—DEAR SIR:—I have had teeth extracted before by so-called painless methods, but you are the only operator who has extracted teeth for me without pain. Your method of extracting surpasses my most sanguine expectations.  
MRS. H. PRENTISS.

Dr. Porter—DEAR SIR:—It gives me great pleasure to state that I am thoroughly convinced of the excellence of your method. I expected to suffer dreadfully having the cavity filled, as it was the worst one I had to have done. In about five minutes after you began to work on it I was satisfied that it would not hurt, which it did not during the entire operation. The tooth you extracted is one I have been dreading for eight years, and after consulting dentists in Sacramento, who advised me not to have it removed, as the ordeal might prove injurious to my health and also disfigure my face. You extracted the tooth without a particle of pain, and I will have no further dread of the dental chair, providing I can obtain the Hale Method.  
MARY E. FLECKENSTEIN.

Dr. Porter—DEAR SIR:—After using Hale's Painless Method as administered by you in the extraction of teeth, I can bear testimony that the results are satisfactory, and that teeth can be extracted painless by said method.  
Respectfully yours,  
HENRY J. NEYLAND.

Dr. Porter—DEAR SIR:—I believe that the Hale Painless Method of filling is destined to lead the world in its special field of usefulness. I am particularly impressed with it, owing to the fact that one does not lose consciousness while having teeth filled, and at the same time does not suffer a particle of pain. You are at liberty to refer any one who contemplates having sensitive teeth filled to me.  
JOHN SHERITT.

## ALL OPPOSED TO SILVER.

The issue of standard dollars from the mint and the treasury during the first week of April was \$16,145. In the same week several millions in gold was paid out of the treasury for the redemption of treasury notes. These notes were issued in payment of bullion purchased, and are redeemable in standard dollars or gold at the option of the secretary of the treasury. It is not recorded, however, that Secretary Carlisle or his predecessor, Secretary Foster, ever redeemed one of those notes with silver coin. Had they done so they would have offended Wall Street, kept millions of free gold in the treasury and got silver in circulation among the people which would have necessitated the coining of a part if not all the silver bullion in the treasury vaults.

The policy pursued by the treasury department has been the same under Hayes, Garfield, Arthur, Cleveland and Harrison. Each and all of those administrations were opposed to paying out silver to cancel government obligations and the consequence now is a scarcity of gold in the treasury which the free coinage men in congress predicted would be the inevitable result of that policy. Now the alternative left the secretary of the treasury is to issue bonds or pay out silver. There is some question as to his authority to issue bonds, but none whatever as to his power to coin silver dollars to redeem treasury notes.

## POLITICS MAKES STRANGE BEHAVIOR.

The changes in the policy of the treasury department about gold and silver coins are the result of the influence of two prominent politicians. As a result of the influence of the late President Hayes and the late President Garfield, the treasury department has been forced to issue gold coins in large quantities. The result of this policy is that the treasury is now almost empty of gold, and the government is forced to issue bonds to pay its debts.

At the same time, the treasury department has been forced to issue silver coins in large quantities. The result of this policy is that the treasury is now almost empty of silver, and the government is forced to issue bonds to pay its debts. This policy has been the result of the influence of two prominent politicians, and it has led to the present state of affairs.

How true the saying that "poor men are the backbone of the nation" when Cleveland, Stevenson and Grover are members of the same political family.

## COIN TREASURY NOTES.

## Secretary Carlisle Will Redeem Them With Gold.

## A FORTUNATE PROSPECTOR.

## Evans and Sontag Make Their Appearance Again.

## COIN TREASURY NOTES.

Secretary Carlisle Will Continue to Pay Gold to Them.

Special to the Journal.

WASHINGTON, April 20.—Secretary Carlisle tonight made the following statement regarding the financial situation:

"In the exercise of the discretionary power conferred upon the secretary of the treasury department by the act of July 14, 1890, he has been paying gold for coin treasury notes issued for the purchase of silver bullion, and he will continue to do so as long as he has gold legally available for the purpose. Under this process the government has been and is now paying gold for silver bullion and storing silver in its vaults."

He said it was useless for any purpose of circulation or redemption as it would lead to any other commodity. The government, in the first place, issues coin treasury notes in paying for silver bullion, and then the coin treasury notes are presented at the sub-treasury and gold paid out for it. So the effect is precisely the same as if gold was paid directly for silver in the first instance. No order was made to stop the payment of gold upon these notes, nor any one authorized to say that such an order would be issued. The purpose of the government to preserve its own credit unimpaired and maintain a parity of the two metals by all lawful means will not be abandoned under any circumstances. In view of the existing legislation the only question for consideration is as to a measure that ought to be adopted to insure the accomplishment of these purposes, and avoid this question on there is, of course, room for wide differences of opinion.

The total stock of gold and gold bullion now in the country, including what is held by banks and individuals, amounts to about \$70,000,000. Two days ago we had only about \$10,000 of free gold, but now it amounts to \$85,000, after deducting what has been withdrawn from the sub-treasury to-day for shipment. Arrangements are now in progress by which more gold is to be procured from the West, and it is hoped a sufficient quantity will be secured to keep the gold reserve intact. There is gold enough in the country to meet all requirements of the situation, and if all who are really interested in maintaining a sound currency would assist the secretary of the treasury to use to the best advantage the existing facilities would soon be removed.

Evans and Sontag Reappear. See also the Journal.

YUBA, April 20.—Evans and Sontag, the notorious outlaws, spent yesterday at Evans' home here. The sheriff received information that they were here, and last night ambushed them with eight deputies. At 11 o'clock a shot was fired, and the robbers fled. The posse pursued them for some distance, but they were not captured. Evans and Sontag did not fire a shot.

The posse in pursuit of Evans and Sontag found no trace of the desperadoes to-day. A visit to the scene of last night's shooting proves that if the robbers had remained where stationed, by shot if they would have been within thirty feet of the robbers as they passed along the road. Instead they moved away forty yards, and the bullets and snorts of the guns were imbedded in the fence between the guards and the bandits.

The desperadoes have evidently gone back to the mountains where they are safe from capture.

At 10 o'clock this morning Mrs. Evans, the eldest daughter of Chris Evans, was seen traveling along the road the bandits took, evidently looking to see if she could find traces of blood. No such thing was visible.

It is now known the men arrived in town before daybreak Wednesday morning, and that there were numerous callers at Evans' house during the day all day seeing the bandits there. Information of their being in town was furnished Sheriff Key by a school child who had seen them.

Mrs. Hancock Dead. Special to the Journal.

New York, April 20.—After a lingering illness Mrs. Hancock, wife of Major General Winfield S. Hancock, died this afternoon at the residence of the general's niece, Mrs. Eugene Griffin. Mrs. Hancock's strength was slowly wasting away under the subtle influence and succession of sorrows that subdued her naturally cheerful disposition, and had withdrawn her from society during the latter years of her life.

Weather Forecast. Special to the Journal.

SAN FRANCISCO, April 20.—The forecast for Nevada is fair weather and slight changes in temperature.

## Heavy Storm in Chicago.

Special to the Journal.

Chicago, April 20.—The high wind of last night continued throughout the day accompanied by a heavy rainstorm. To-night the wind veered to the west and the rain changed to snow, which, however, melted as fast as it fell. The weather now is colder than it has been at this time of year for a long time, with every prospect of its growing colder through the night.

Despite last night's tremendous storm the damage to the world's fair is comparatively light. A large section of the glass roof of the main building was broken in and the rain caused considerable wetting of goods stored below, but as stated in last night's dispatches a large force of men was put to work and everything covered up before serious harm was done.

Some lighter buildings in the midway piazas were partially wrecked. The wind during last night attained a velocity of 72 miles an hour and was doing some damage to shipping in the lower harbor.

The steam barge Wright started out last night with two schooners, the F. L. Danforth and R. B. Hayes, in tow for Muskegon. At 4 o'clock this morning she had only succeeded in making about five miles headway. At that time her hawser parted and the schooner Danforth was driven ashore off Belmont avenue and wrecked. Her crew was rescued with great difficulty by the life saving crew. Nothing has yet been heard of the Wright or Hayes and fears are entertained for their safety.

## A Lucky Prospector.

Special to the Journal.

ASHLAND, Or., April 20.—Reliable news, telling of a remarkable strike in Willow Springs precinct near the old postoffice has been received. The lucky prospector's name is Jacob Herchberger and so rich is the vein that yesterday morning he took out rock enough streaked with gold to easily bring \$1,000, and it is estimated that he has taken out no less than \$1,500 since finding the vein a day or two ago. One remarkable thing about it was that the vein was discovered right on the old overland stage road and only 200 yards from Willow Springs stage station, where before railroad lines in this valley all overland passengers on the old Oregon & California stage line, waited while the change of horses was made. Several other strikes in the same vicinity have been made lately. The hills are filled with industrious prospectors and excitement has not been so great in mining matters in many years.

## A Private Letter from Hawaii.

Special to the Journal.

WASHINGTON, April 20.—A private letter from the United States official at Hawaii came in last night. In reference to the report Commissioner Blount directed the lowering of the United States flag without consulting with Minister Stevens, Admiral Skeritt or any representatives of the United States in Honolulu, the writer says Blount did have a consultation with Stevens on the subject, and while he does not say so in so many words, the inference to be drawn from the letter is that Stevens concurred with the commissioner in his action. The report that the Japanese in Hawaii were contemplating resistance by force to American domination of the islands is contradicted by the writer. In point of fact, he says, the only agitators there at present are newspaper correspondents.

## A Customs Inspector Smuggling.

Special to the Journal.

SAN FRANCISCO, April 20.—Thos. H. Douglass, a customs inspector, was caught smuggling opium ashore from the steamer China. He was placed on guard on the China and attempted to take 220 lbs of opium ashore in a small boat. He was arrested and his bail fixed at \$5,000.

## A Workman Killed.

Special to the Journal.

SAN FRANCISCO, April 20.—Gus Gonzales a workman in the shops of the Wagner Manufacturing Company was killed to-day by a loosened chisel falling from the lathe and piercing his breast.

## DIED.

Special to the Journal.

HARRIS—At the county hospital, April 20, 1893, George D. Harris, a native of Maine, aged 71 years.

## Ayer's Pills

Special to the Journal.

## A Customs Inspector Smuggling.

Special to the Journal.

SAN FRANCISCO, April 20.—Thos. H. Douglass, a customs inspector, was caught smuggling opium ashore from the steamer China. He was placed on guard on the China and attempted to take 220 lbs of opium ashore in a small boat. He was arrested and his bail fixed at \$5,000.

## A Workman Killed.

Special to the Journal.

SAN FRANCISCO, April 20.—Gus Gonzales a workman in the shops of the Wagner Manufacturing Company was killed to-day by a loosened chisel falling from the lathe and piercing his breast.

## DIED.

Special to the Journal.

HARRIS—At the county hospital, April 20, 1893, George D. Harris, a native of Maine, aged 71 years.

At 10 o'clock this morning Mrs. Evans, the eldest daughter of Chris Evans, was seen traveling along the road the bandits took, evidently looking to see if she could find traces of blood. No such thing was visible.

It is now known the men arrived in town before daybreak Wednesday morning, and that there were numerous callers at Evans' house during the day all day seeing the bandits there. Information of their being in town was furnished Sheriff Key by a school child who had seen them.

## Mrs. Hancock Dead.

Special to the Journal.

New York, April 20.—After a lingering illness Mrs. Hancock, wife of Major General Winfield S. Hancock, died this afternoon at the residence of the general's niece, Mrs. Eugene Griffin. Mrs. Hancock's strength was slowly wasting away under the subtle influence and succession of sorrows that subdued her naturally cheerful disposition, and had withdrawn her from society during the latter years of her life.

Weather Forecast. Special to the Journal.

SAN FRANCISCO, April 20.—The forecast for Nevada is fair weather and slight changes in temperature.

## BREVITIES.

Dr. Porter fills teeth without pain. \*  
Garden tools and garden hose at Lange & Schmitt's. \*

Sixty men are at work cleaning out the Highland ditch.  
Manager Cest of the N-C-O. left for New York city yesterday.

Frank Sisson of the Wadsworth Dispatch visited Reno yesterday.

The Silver State says there is not a vacant house in Winnemucca.

A man is on trial in St. Louis charged with stealing electricity by wire.

Crookery and glassware at San Francisco prices at Lange & Schmitt's. \*

Mosini's French female pills for irregular menses. Sold by McCullough.

W. D. Tobey of Carson was a passenger last evening for San Francisco.

A large number of healthy looking trees have been planted in Deadwood park.

The Verdi mill is busy turning out boxes for the orange growers of California.

Young women, who complain of languor and loss of appetite, need Ayer's sarsaparilla.

Frank Shaw, the big cattle man of Inyo county, was among the arrivals on last evening's V. & T.

It is understood that the university cadets will have an encampment the middle of next month.

S. P. Davis of the Appeal and wife were among the passengers for San Francisco last evening.

The Dispatch says burglaries are being committed along the line of the Central Pacific railroad.

J. A. Conbois, the Virginia City undertaker, passed through to San Francisco last evening.

Eleven cars of beef cattle were shipped from here yesterday to Hayes, Carriock & Co., Oakland.

A Chicago burglar concluded to take a bath in a house he had ransacked, and was captured while bathing.

The finder of a bracelet of nine bangles will please leave the same at this office for advertisement.

"Soldier" Walker, who is matched to fight "Satanstoe" Turner at Carson, passed through to the capital city yesterday.

S. E. Gillis, one of the oldest printers on the Comstock, has given up his "sit" on the Chronicle and departed for California.

The funeral of Father Nix, pastor of the church at Bodie, who died at Hawthorne last Monday, took place at Carson yesterday.

The wife and child of C. F. Loring, who has been visiting in California for the past winter, returned to Reno yesterday morning.

As a body is liable to derangements of the stomach and bowels, the need of Ayer's pills is universal. They are the best cathartic.

The annual meeting of the Verdi mill company was held yesterday and O. Lonkey, J. W. Condon and C. C. Powning were selected trustees.

Superintendent Whited of the Truckee division, C. P. R., was around yesterday taking observations on this section of his division.

Mrs. George Gagin, Mr. and Mrs. R. M. Clarke and Wm. Clarke arrived from Carson last evening and departed on the eastbound train for the West.

The Nevada State Journal is out in new type and very neat in appearance. The Journal is a good paper and we wish it success wherever it is read.

Henry Morris now has three chairs in his tonorial parlor and each is presided over by an artist. Customers do not tire waiting for their turn.

To restore gray hair to its natural color as in youth, use it to grow abundant and strong there is no better preparation than Hall's Hair Restorer.

It is proposed in Massachusetts to provide for the use of indelible lead pencils at elections, to prevent the fraudulent altering of ballots during count.

The Reno Journal has a new volume and a new dress and it is better than ever. It is an able champion of silver, and of whatever benefits Nevada and Reno. Its pages indicate enterprise and prosperity.

Clough & Crosby commenced work on their new brick building on Second street yesterday. The building is to be two stories high with a basement, and 68 feet front on Second street by 45 feet deep.

At Sacramento Charles A. Cox, 71 years of age, was playing with a .22-caliber cartridge, and endeavored to unload it with a slate pencil. The result was that the cartridge exploded, frightfully lacerating the boy's hand.

County bonds to the amount of \$15,000 are offered for sale. These bonds were authorized by act of the legislature and are a safe investment. They bear higher interest than United States bonds and Washoe county is pledged to redeem them.

Ex-Sheriff Fellows and Thomas Harper of Humboldt are prospecting for placer mines in the Antelope mountains west of Mill city. Gold was discovered in what was believed to be paying quantities, near Rabbit Hole springs in the Antelope range years ago.

## THE WEATHER EAST.

Cyclones in the Southwest and Galois and Snow Storms in the Northwest.

The weather east is worse than ever before known at this season of the year. In Kansas, Arkansas, Alabama and Mississippi cyclones are devastating whole sections of the country. Otago city, Kansas was leveled to the ground in a few minutes and many persons injured, two of them fatally. For miles along the Arkansas river, near Roseville, dwelling houses, barns and fences were demolished and the village of Boles, Arkansas, was destroyed and seven or eight persons killed. Midland city, Alabama, was partially destroyed and several persons injured though none were killed.

Jasper and Clarke counties, Mississippi, were swept for a distance of fifty miles, by a cyclone, which left desolation and ruin in its wake the loss of life and property being great.

Further north, in Missouri, Iowa and Minnesota, heavy snow storms have prevailed damaging fruit trees in Missouri and southern Iowa and retarding farm work. In many places the snow was from six to eighteen inches deep.

A gale swept over Lake Michigan doing much damage to shipping and wrecking the cribbing at the terminals of the new water works at Milwaukee and causing the death of a dozen or more men who were at work on the crib which was wrecked by the waves.

The spring is a most remarkable one east and west and is noted on this coast as the most backward since the settlement of the country by the whites.

## THE COMSTOCK LODE.

It is Bullion Product Over Five Hundred Millions.

Six or seven years ago, says the Carson Appeal, Alf Doten, under instructions from the director of the mint, compiled a tabulated statement and narrative of the bullion yield of the Comstock lode. It was given by calendar years, from the discovery in 1859, derived from the most authentic and official sources, showing also the total assessments and dividends and other of interest.

Since the adjournment of the late legislature Mr. Doten, under the same government official direction, has revised and extended his report down to the commencement of the present year and it will soon be published by the bureau of the mint in the director's annual report, being the only complete statement ever given on the subject.

It shows the entire gold and silver product to be over \$500,000,000. The discovery year 1859, gave \$30,000,000—altogether. The greatest yield was in 1877, about \$36,000,000. Last year it was a little over \$2,000,000.

## THE GREAT VIOLINIST.

He Arouses Much Enthusiasm in Philadelphia.

The Philadelphia Press says of the great Hungarian violinist's entertainment in that city:

"Association hall was crowded last evening with an audience that showered upon Mr. Edouard Remenyi, the great Hungarian violinist, rounds of applause that betokened the virtuoso's powers of arousing enthusiasm, as in days gone by, when he met with unprecedented triumphs in all parts of the Union. He has not lost any of the vim and fire that have made him famous. This was shown in his playing of his own 'Hungarian Melodies' and in this he aroused his audience to the highest pitch of enthusiasm. He was recalled repeatedly, and for his last encore played his famous 'Liberty Hymn,' composed by him during his last visit to the United States. After every one of his selections he was forced to respond to encores. It is very evident that he will repeat his former conquests."

Remenyi and his company will appear at the opera house here Saturday night.

## RED HAIR AND FRECKLES.

The Analyst Tells What Causes Them.

Science explains the phenomenon of red hair thus: "It is caused by a superabundance of iron in the blood. This is that imparts the vigor, the elasticity, the great vitality, the overflowing thoroughly healthy animal life which runs riot through the veins of the dandy haired, and this strong, sentient animal life is what renders them more intense in all their emotions than their more languid fellow creatures. The excess of iron is also the cause of freckles on the peculiarly clear, white skin which always accompanies red hair. This skin is abnormally sensitive to the sun's rays, which not only brings out the little brown spots in abundance, but also burn like mustard plaster, producing a queer, creeping sensation, as if the skin was wrinking up."

## For the East.

General R. M. Clarke, accompanied by M. S. Clarke and Mrs. C. W. Gagin, departed for the east to-night, says the Carson Tribune. The general will first attend the trans-Mississippi congress at Ogden as a delegate from Nevada; then depart for Chicago so as to be present on the opening day of the world's fair; then depart for New York to consult his clients, the Moran Bros., and then to Washington to discuss the case of Moran Bros., complainants and appellants vs. H. J. McMurray, et al., defendant and respondent, litigation growing out of the N. & O. R. R., running out of Reno. The general expects to return to Nevada the latter part of May.

Dr. Porter extracts teeth without pain. Office, Steele building, Commercial Row.

## SAN FRANCISCO MEAT MARKET.

The Supply of Beef and Mutton Plentiful. The Butcher's Gazette has the following report of the San Francisco meat market:

Beef of all kinds are very plentiful. The supply coming principally from Nevada and Northern California. The scarcity of feed is compelling owners to ship in large quantities. The quality is first-class and the demand consequently good. Prices being fairly well maintained as our quotations will show.

There is a plentiful supply of range calves at good prices.

Veal is quoted at 6 to 7c for large, small 7 to 7½c, 8c for extra.

In mutton the supply has steadily been on the increase, reducing prices somewhat; Los Angeles county contributing largely. The quality is of the best and commands ready sale.

There are rumors of big shipments from Utah, which cannot be absolutely verified. The drop in the market puts a positive complexion on it. Spring lambs are quoted much lower, 9½ to 10c, while a few extra reach 11 to 11½.

Prices for round lots are quoted as follows:

Extra prime medium and heavy, top price 6½ to 7

Steady, first quality 6 to 6½

Steady, second quality 5½ to 6

Choice heifers 5 to 5½

Fair to very choice cows 4½ to 5

Small, light heifers and steers 4 to 4½

Bulls, stags and cows 3½ to 4

Wethers, Merinos 7½ to 8

Wethers, large 7 to 7½

Ewes, small and bandy 7 to 7½

Goats 5 to 5½

Lambs, spring 9½ to 10

Choice range lambs 6 to 7½

Large and fat 6 to 7

Hogs dressed, hard light 10 to 10½

Hogs, live, hard light 9½ to 10

do do do medium 6½ to 7

do do do heavy 7 to 7½

## County Bonds for Sale.

The board of county commissioners are now ready to dispose of the \$15,000 bonds ordered issued for road purposes, and will give the preference of their purchase to home people, who have idle money, rather than place them on the San Francisco market.

The investment is better than interest on time deposits or government bonds and our own citizens should take them and keep the interest money at home.

Chairman A. H. will receive applications, and the first who apply will be the first served. This offer will only hold for one week from date.

April 20, 1893. Iv

## For the Scrap Book.

There are ten active volcanoes in our territory.

The United States have nearly 200 active geysers.

This country has 9,000,000 men fit for military duty.

The mouth of the Amazon is about 150 miles wide.

There are forty-seven Chinese temples in this country.

The greatest tract and the highest trees are in America.

The birth rate is believed to be decreasing in all civilized nations.

The first idea of a pneumatic tube was due to Denis Papin in 1667.

There are twenty-two revolutionary widows still drawing pensions.

Ten thousand of our population live at an altitude of more than 10,000 feet.

The Dakota river is the longest un-navigable river in the world—over 1,000 miles.

Patrick Henry, in 1776, was first to make use of the expression "fellow-citizens."

All the glaciers in the Alps would not equal one of the largest in our territory of Alaska.

The United States flag was first saluted by a foreign power at Guiberson Bay, in France, by Admiral La Motte.

No Man's Land lies between Colorado and Kansas on the north and Texas on the south. It contains 4,000,000 acres.

The oldest tree on earth is said to be the Boe tree in the sacred city of Amarapura, Burmah. It was planted in the year 288 B. C.—Bachange.

Judge Hazen of the district court at Topeka, Kas., has issued a temporary injunction restraining the strikers from interfering with the operations of the Atchison, Topeka and Santa Fe road, or with the men who are at work in the shops. The sheriff and thirty deputies are endeavoring to serve notices of the injunction on the strikers. The case is set for hearing on May 1st.

Two Virginia City men, George Lamm and George Williams, went to Washoe Lake to fish. They found a fence between the road and the lake and were charged with malicious mischief for removing it so as to get a team and cart through. They were tried by a jury in Justice Linn's court yesterday and acquitted.

The Reno Journal commences a new volume with a new dress and presents a neat appearance. The Journal is ably edited and is the largest daily in the State. Its new and tasty dress is an evidence of its prosperity.—Boche Record.

## For Our Fifth Years

As a school to young boys has been used for a number of years, the children who attend it are of a high standard of intelligence and are well equipped with the principles of the English language and the principles of the English language and the principles of the English language.

The Cocoon Toilet Specialties are attracting the favorable attention of the ladies and the beneficial effects to all who are using them. The general satisfaction given is resulting in a large increase of sales and every one is commending the Cocoon preparations.

## The Railroads Cannot Agree.

Special to the JOURNAL.]

CHICAGO, April 20.—All the work done by the Western Passenger Association the last six weeks went by the board to-day. All members of the association threw up their hands and gave up hope of an immediate adjustment of world's fair rates. The cause of the collapse was the announcement by Passenger Traffic Manager White of the Atchison road that his company would at the expiration of thirty days withdraw from membership in the association. This is done, he said, because his line could not secure protection in world's fair rates west of the Missouri river where it does the largest business.

The Denver and Rio Grand had refused to join the association unless its local troubles with the Colorado Midland were settled.

The Burlington and Rock Island took the stand that an agreement west of the Missouri river was impossible without the Denver and Rio Grand.

This was the splitting point and it proved an effectual one. The Atchison people say they withdraw, not with any intention of cutting rates, but simply to protect their revenues.

Giant Powder Explosion.

Special to the JOURNAL.]

SAN DIEGO, Apr 120.—A special dispatch to the Union from Escondido, Lower California, gives news of a serious accident at the mining camp of Valhueras on Saturday. Jerry Stannard and M. M. Wells, two miners, were tampering in a charge of giant powder when it exploded with terrific force blowing Stannard, who was nearest the hole several yards away, and inflicting injuries which are regarded as fatal.

Wells, who happened to be a foot or so away at the moment, was thrown down, stunned and seriously wounded. Though the jump is located forty miles from San Diego in a rough country, it was thought best to remove Wells.

Formulated Charges Forwarded.

Special to the JOURNAL.]

WASHINGTON, April 19.—Assistant Attorney-General Cully to-day forwarded to Professor Mark Harrington, chief of the weather bureau, formulated charges against him and other officials of the bureau for alleged malfeasance in office. The charges include misrepresentation of fact, shielding unworthy employees, passion and violation of civil service laws, inefficiency, maladministration and improper diversion of public funds.

The secretary of agriculture requested the resignation of Major S. Rockwood, assistant chief of the weather bureau, and the resignation was tendered and accepted.

Telegraphic Revolt.

A fearful cyclone, leaving death and destruction in its track, swept over several portions of the east yesterday.

An attempt was made yesterday to arrest Sonntag and Evans who were at Evans' house at Visalia, but the robbers got away amid a shower of bullets fired by the sheriff and posse.

William McCroly committed suicide yesterday at Gridley, Cal., by jumping into the Feather river. He filled his overcoat pockets with rocks and fastened his hands together with a rope before making the leap.

The assistant superintendent of the motive power department of the Union Pacific informed a representative of the Associated Press yesterday that so far only 1,300 men had gone out on the strike out of a total number employed in his department of over 10,000.
